# AI NEWS DAILY — 2026-07-01

Generated: 2026-07-01T19:00:00+07:00 | 27 articles | 3 batches (Thai: 12, Intl: 9, Research: 6)

AI Trends: 12 | Tech Trends: 6 | Thailand: 3 | Global: 6 | High Urgency: 7 | Breakthrough: 6

## AI TRENDS (12 articles)

[MED] Techsauce

### [redacted] Prompt [redacted] [redacted] Anthropic

[redacted] Code with Claude [redacted] The Prompting Playbook [redacted] Margot van Laar [redacted] Anthropic [redacted] Prompt [redacted] Eval [redacted] Prompt [redacted] [redacted] Prompt [redacted] XML [redacted] [redacted] [redacted] [redacted] [redacted]

Impact: [redacted] AI [redacted] Prompt [redacted]

[HIGH] Blognone

### Meituan [redacted] LongCat-2.0 [redacted] AI [redacted] Gemini 3.1 Pro, GPT-5.5 [redacted] [BREAKTHROUGH]

[redacted] Meituan LongCat [redacted] LLM [redacted] LongCat-2.0 [redacted] Gemini 3.1 Pro, GPT-5.5 [redacted] Claude Opus 4.6 [redacted] LongCat-2.0 [redacted] GPU [redacted] NVIDIA [redacted] AI [redacted] AI [redacted] [redacted] E-commerce [redacted] Meituan [redacted] frontier-class [redacted] AI [redacted]

Impact: [redacted] frontier LLM [redacted]

[HIGH] Blognone

### Claude Fable 5 [redacted] Mythos 5 [redacted]

Anthropic [redacted] AI [redacted] Claude Fable 5 [redacted] Mythos 5 [redacted] [redacted] Anthropic [redacted] Mythos 5 [redacted] Fable 5 [redacted] AI [redacted]

Impact: [redacted] AI

[redacted]

[MED] Blognone

### Gemini [redacted] Personal Intelligence [redacted] Google Photos

Google [redacted] Personal Intelligence [redacted] Gemini [redacted] Gemini [redacted] Gmail, Google Photos [redacted] YouTube [redacted] Google Photos [redacted] AI Personalization [redacted] Google [redacted] AI [redacted]

Impact: Google [redacted] personalized AI [redacted] Google ecosystem [redacted]

[HIGH] Anthropic

### Anthropic [redacted] Claude Sonnet 5 [redacted] Sonnet [redacted] agentic [redacted]

Anthropic [redacted] Claude Sonnet 5 [redacted] Sonnet [redacted] agentic [redacted] browser [redacted] terminal [redacted] Opus 4.8 [redacted] Sonnet 4.6 [redacted] reasoning, tool use, coding [redacted] Sonnet 5 [redacted] Sonnet 4.6 [redacted] cybersecurity [redacted] Opus [redacted] cyber [redacted] Sonnet 5 [redacted] Free, Pro, Max, Team [redacted] Enterprise [redacted] Claude API [redacted] $2 [redacted] 1M input tokens [redacted] $10 [redacted] 1M output tokens [redacted] 31 [redacted] 2026 [redacted] $3/$15

Impact: Claude Sonnet 5 [redacted] agentic [redacted] Opus 4.8 [redacted] developer [redacted]

[MED] Hacker News

### [redacted] GLM 5.2 [redacted] Claude Opus 4.8 [redacted] coding [redacted] one-shot

[redacted] techstackups.com [redacted] open-weight GLM-5.2 [redacted] Zhipu AI [redacted] Claude Opus 4.8 [redacted] Anthropic [redacted] one-shot [redacted] 3D [redacted] raw WebGL [redacted] Opus 4.8 [redacted] GLM-5.2 [redacted] Opus [redacted] output token pricing [redacted] Hacker News [redacted] one-shot prompt [redacted] coding agent [redacted] collaborative [redacted] GLM-5.2 [redacted] open-weight [redacted] frontier [redacted] UI/UX [redacted]

Impact: [redacted] open-weight [redacted] GLM-5.2 [redacted] coding [redacted] frontier [redacted]

[MED] ArXiv

### AI-Model Network: [redacted] Internet-Like [redacted] AI [redacted] [BREAKTHROUGH]

[redacted] AI-Model Network [redacted] AI [redacted] distributed [redacted] AI [redacted] siloed

[redacted] delegate [redacted] [redacted] context [redacted] [redacted] protocol [redacted] model discovery, task routing, result verification [redacted] trust management [redacted] [redacted] ecosystem [redacted] AI agents [redacted] [redacted] AI infrastructure [redacted]

Impact: [redacted] AI-Model Network [redacted] multi-agent AI [redacted] centralized orchestration [redacted] decentralized collaboration

[MED] ArXiv

### Internalizing the Future: [redacted] Agentic AI [redacted] World Model Planning [redacted] 3 [redacted] [BREAKTHROUGH]

[redacted] AI agent [redacted] long-term planning [redacted] internalize world model [redacted] external simulator [redacted] 3 [redacted] [redacted] WM-AMT (World Model Agentic Multi-Task) [redacted] agent [redacted] FE-SFT (Future Emulation Supervised Fine-Tuning) [redacted] agent [redacted] [redacted] FC-RL (Future-Conditioned Reinforcement Learning) [redacted] [redacted] agent [redacted] [redacted] reward [redacted] [redacted] AI [redacted]

Impact: [redacted] AI agent [redacted] world model [redacted] explicit planning modules [redacted] agentic AI [redacted]

[HIGH] ArXiv

### GILP: [redacted] Hallucinated-State [redacted] LLM Agent [redacted] 17.6% [redacted] 3.5% [redacted] Success Rate 66.8%→83.8% [BREAKTHROUGH]

[redacted] GILP (Grounded Iterative Language Planning) [redacted] hallucinated states [redacted] LLM agent [redacted] agent [redacted] action plan [redacted] [redacted] execution [redacted] GILP [redacted] agent [redacted] state [redacted] ground truth [redacted] iterative [redacted] execute [redacted] GILP [redacted] hallucinated-state rate [redacted] 0.176 (17.6%) [redacted] 0.035 (3.5%) [redacted] 80% [redacted] task success rate [redacted] 0.668 [redacted] 0.838 [redacted] hallucination [redacted] AI agent

Impact: GILP [redacted] grounding verification [redacted] planning [redacted] agent hallucination [redacted] 80% [redacted]

[HIGH] ArXiv

### NormAct: GPT-5.4, Claude Opus 4.7, Gemini 3 Pro [redacted] Social Norms [redacted] 26.4% [redacted]

[redacted] NormAct [redacted] benchmark [redacted] LLM [redacted] social norms [redacted] (hidden norms) [redacted] [redacted] frontier [redacted] GPT-5.4, Claude Opus 4.7 [redacted] Gemini 3 Pro [redacted] social norms [redacted] 26.4% [redacted] [redacted] LLMs [redacted] [redacted] deploy AI [redacted] [redacted] healthcare, customer service [redacted] social robotics

Impact: LLMs [redacted] social norm compliance [redacted] [redacted] deployment [redacted] cultural sensitivity [redacted]

[MED] ArXiv

### Tandem RL with Verifiable Rewards: RLVR [redacted] [BREAKTHROUGH]

[redacted] framework Tandem RL with Verifiable Rewards [redacted] RLVR (Reinforcement Learning with Verifiable Rewards) [redacted] (weaker models) [redacted] rewards [redacted] reward model [redacted] [redacted] scalability [redacted] RLVR [redacted] Tandem RL [redacted] ensemble

[redacted] verifiable signal [redacted] train [redacted] RL [redacted] ground truth [redacted] scientific research [redacted] code verification

Impact: Tandem RL [redacted] RLVR training [redacted] strong reward model [redacted] domain-specific AI

[MED] ArXiv

### JD Oxygen AIIC: [redacted] LLM/VLM [redacted] E-Commerce 700 [redacted] SKU [redacted] 94.2%

JD.com [redacted] Oxygen AIIC (AI Infrastructure and Intelligence Core) [redacted] e-commerce [redacted] 700 [redacted] SKU [redacted] LLM [redacted] VLM (Vision Language Model) [redacted] product search, recommendation, image understanding [redacted] customer service [redacted] production [redacted] precision 94.2% [redacted] product classification [redacted] traffic [redacted] deploy AI [redacted] hyperscale e-commerce [redacted]

Impact: JD Oxygen AIIC [redacted] LLM/VLM [redacted] deploy [redacted] hyperscale production [redacted] precision [redacted]

### Cline [redacted] AI [redacted]

Cline [redacted] VSCode [redacted] AI Coding Agent [redacted] GitHub Copilot [redacted] ClinePass subscription [redacted] 9.99 [redacted] AI [redacted] GLM 5.2, Kimi K2.7 [redacted] DeepSeek v4 [redacted] subscription [redacted] Cline [redacted] API key [redacted] AI Coding Tool [redacted] API-based [redacted] all-inclusive subscription [redacted] developer [redacted] GitHub Copilot

Impact: [redacted] AI Coding Tools [redacted] subscription model [redacted] developer [redacted] Copilot

[MED] Anthropic

### Anthropic [redacted] Claude Science [redacted] AI [redacted] [BREAKTHROUGH]

Anthropic [redacted] Claude Science [redacted] life sciences [redacted] AI workbench [redacted] PubMed, Jupyter, R [redacted] cluster terminal [redacted] agent [redacted] skills [redacted] connectors [redacted] 60 [redacted] genomics, proteomics, cheminformatics [redacted] structural biology [redacted] reviewer agent [redacted] compute [redacted] HPC cluster [redacted] GPU [redacted] Manifold Bio, Allen Institute [redacted] UCSF [redacted] Claude Science [redacted] beta [redacted] Pro, Max, Team [redacted] Enterprise [redacted] 50 [redacted] AI for Science [redacted] 15 [redacted] 2026

Impact: Claude Science [redacted] compute [redacted]

[MED] Anthropic

### Anthropic [redacted] Claude for Small Business [redacted]

Anthropic [redacted] Claude for Small Business [redacted] Claude [redacted]

[redacted] end-to-end [redacted] CRM [redacted] Hacker News [redacted] Claude Code [redacted] (market penetration) [redacted] AI [redacted] AI [redacted] use case [redacted]

Impact: Claude for Small Business [redacted] AI agentic [redacted] use case [redacted]

[LOW] Hacker News

### Sakana AI [redacted] Fugu [redacted] orchestration [redacted] API [redacted]

Sakana AI [redacted] Fugu [redacted] orchestration [redacted] routing [redacted] LLM [redacted] endpoint [redacted] OpenAI-compatible [redacted] Fugu Ultra [redacted] workflow [redacted] Hacker News [redacted] Fugu [redacted] Fusion [redacted] OpenRouter [redacted] orchestrator [redacted] vendor [redacted] Sakana [redacted] single point of dependency [redacted] Fugu Ultra [redacted] Fusion [redacted] OpenRouter

Impact: Fugu [redacted] multi-model orchestration [redacted] orchestration

[MED] TechCrunch

### [redacted] Proception [redacted] Tesla [redacted] $11M

Proception [redacted] (dexterous robot hand) [redacted] Tesla [redacted] Series A [redacted] 11 [redacted] Proception [redacted] tactile sensing [redacted] dexterous manipulation [redacted] humanoid [redacted] Tesla [redacted] Tesla (Optimus) [redacted] Proception [redacted] $11M [redacted]

Impact: [redacted] robot hand [redacted] tactile sensing [redacted] Tesla [redacted] IP [redacted]

[MED] TechCrunch

### Omen AI [redacted] liquid cooling [redacted] AI data center

Omen AI [redacted] AI infrastructure [redacted] AI [redacted] liquid cooling [redacted] AI [redacted] GPU [redacted] Omen AI [redacted] air cooling [redacted] ML [redacted] real-time [redacted] 30-40% [redacted] power [redacted] water consumption [redacted] AI data center [redacted] Omen AI [redacted]

Impact: [redacted] AI data center [redacted] infrastructure optimization startups
